This program is intended for firearms instructors, tactical officers, military and law enforcement assigned to specialty details/assignments.

In this intense hands-on workshop, students will receive basic through advanced training techniques involving the application of Lights, Sights and Lasers under demanding real-world conditions. Aided by the use of dynamic rapid-acquisition sighting systems from XS Sights, this program focuses on efficient movement, reaction-time enhancement, compressed distance and unconventional shooting positions. Training is delivered by Wes Doss and his team of Khyber professionals. Seats are limited and pre-registration is required.
