STATION ORDER 4235.8P

From: Commanding Officer
To: Distribution List

Subj: ASSIGNMENT OF REQUISITION SERIAL NUMBERS

Encl: (1) SERIAL NUMBERS ASSIGNMENT LIST

1. Purpose. To publish assignment of requisition serial numbers for all supply requisitioners who utilize Unit Identification Codes (UIC) 62974.
2. Cancellation. StaO 4235.8N.
3. Scope. This order applies to all departments and tenant units requisitioning from and returning material to UIC M62974.
4. Action
 - a. The block of serial numbers assigned by the enclosure allows sufficient range so that no number will be repeated on a single Julian date. A unit which prepares requisitions shall assign document numbers sequentially, regardless of Julian date, for example: 1003S101, 1004S102, 1008S103. Material deliveries to the requisitioning agency will be as designated by the assigned serial number and delivery point shown on the enclosure. Any deviations from the enclosure will result in erroneous deliveries and billing coupled with undue delay to the requisitioning agency.
 - b. Only serial numbers listed in this order will be used.
5. Responsibility. Request for assignment or changes of serial numbers will be made to the Supply Officer (Attn: 3KB1), extension 5367.
6. Summary of Revision. This revision contains a substantial number of changes and should be completely reviewed.
