

## TIER 3 PUBLIC NOTICE

### IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

#### Reporting Requirement(s) Not Met for Marine Corps Air Station (MCAS) Yuma Public Water System #14082

We are required to report to the Arizona Department of Environmental Quality (ADEQ) the findings of our water system's triggered Operational Evaluation Level (OEL) report within 90 days of being triggered for Total Trihalomethanes (TTHM). Results of the report are an indicator of whether our surface water treatment facility is operating properly or whether adjustments are required. We did not complete triggered reports on 3/31/2025 for First Quarter for (TTHM) evaluation. This reporting requirement was inadvertently overlooked because we were short staffed. Several water plant employees accepted the Deferred Resignation Program in early 2025 and were placed on administrative leave for several months prior to leaving their jobs.

Although public health was not impacted, as our customers, you have a right to know what happened and what we did to correct the situation.

#### **What should you do?**

There is nothing you need to do at this time. This was not a water quality violation and no health risk is expected. Sampling and testing were performed on time and did not exceed the regulatory limits, but the required forms were submitted after the due date, resulting in a reporting violation.

#### **What are we doing?**

The required OEL Report has been filed with the ADEQ. Water plant supervisor and water treatment plant operator positions have been permanently filled, resulting in a dedicated individual overseeing all sampling and reporting requirements. This will help prevent future violations.

For more information, contact Ronald Kruse, Public Works Director at 928-269-3523 or [ronald.kruse@usmc.mil](mailto:ronald.kruse@usmc.mil).

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.\**

This notice is being sent to you by **Marine Corps Air Station (MCAS) Yuma Public Water System**.  
State Water System ID# 14082.
