### MCAS Yuma Breaks Wall of Fire Guinness World Record

**MARINE CORPS AIR STATION YUMA, Ariz. (December 19, 2017)** — MCAS Yuma broke the World Record for the longest wall of fire during the 2017 Yuma Airshow.

With the assistance of the Tora Bomb Squad of the Commemorative Air Force and their pyrotechnic expertise, the Core Engineering Group, PLLC and their engineering assessment, which validated the length of the wall of fire and is required by Guinness World Records, and the Yuma County Airport Authority for their fiscal sponsorship, MCAS Yuma broke the previous record of 10,178.3 feet with a wall of fire that spanned 16,046.5 feet.

MCAS Yuma would like to give special thanks to all who contributed and the local community for their support and dedication that made this achievement possible.
