Marine Corps Air Station Yuma Awards Construction Contract

MARINE CORPS AIR STATION YUMA, Ariz. (July 29, 2022) — MCAS Yuma awarded the construction contract for Bachelor Enlisted Quarters Building 634 repairs to Heffler Contracting Group, July 20, 2022.

The \$13,229,114 contract is expected to be completed by January 2024 and provides for essential repairs, restoring all rooms to current standards for finishes, mechanical, plumbing and lighting systems.

"Our mission at MCAS Yuma is to facilitate training and ultimately generate warfighting readiness," said Col. Charles Dudik, the Commanding Officer of MCAS Yuma. "A very meaningful aspect of that mission is to provide the best quality of life possible for our Marines, Sailors, and families. This barracks renovation project will significantly improve the quality of the living quarters for our Marines, and will undoubtedly contribute to increased readiness."

The contract will also include some major replacements in the HVAC and electrical systems of the building, such as replacement of fan coil units, air handlers, exhaust systems and lighting.
