

MarineNet

Activation Announcement

Workplace Safety Courses

15 June 2011

Twenty new courses designed to support ground safety programs are now available on MarineNet. These courses are intended to educate Marines and supervisors on everyday workplace hazards.

Courses are designed for Marines, Leaders and Safety Supervisors.

Search MarineNet with "MFC*" to review all twenty courses.

www.marinenet.usmc.mil

- Enrollment is open to all MarineNet users
- Study Hours: 2/course
- Course access provided by Department of Safety and Standardization, U.S. Marine Forces Command

24th Executive Force Preservation Board Results (MARADMIN 240/11)

“Recognizing that high quality training of unit additional duty safety personnel may positively affect unit safety programs and improve mishap reporting, Safety Division and TECOM will collectively work to enhance and/or modify the current Ground Safety for Marines training course to better prepare uniformed additional duty safety managers/offices to execute their duties.”

Course Code	MarineNet Course Name
